DEPLOYMENTS OF MCB ONE

ROTA, SPAIN
JULY, 1962—JAN, 1963

**GUANTANAMO BAY,
CUBA**

JULY, 1963—MARCH, 1964

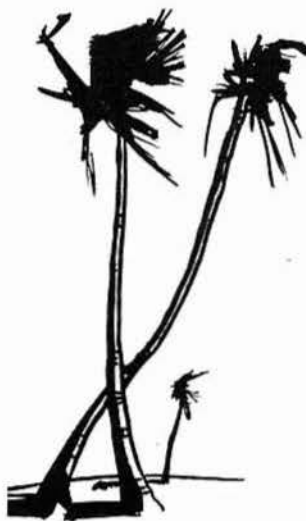

The fighting Seabees of World War II are still landing on the shores of foreign countries and territories. Today, however, in keeping pace with a more modern Navy, the Seabees are supporting guided missile squadrons, nuclear submarines, giant aircraft carriers, advanced electronic and nuclear programs in addition to naval and air bases.

The question "what are the Seabees" has been asked many times. The best definition is: "A Seabee is a soldier in a sailor's uniform with marine combat training doing a civilian job at W.P.A. wages." There are all kinds of people in the Seabees — from boys fresh from the farm

to men with master degrees from our leading universities. They come from all walks of life, but, most important, the Seabees are a team, highly skilled in technical fields. They can do anything up to and including stringing a telephone

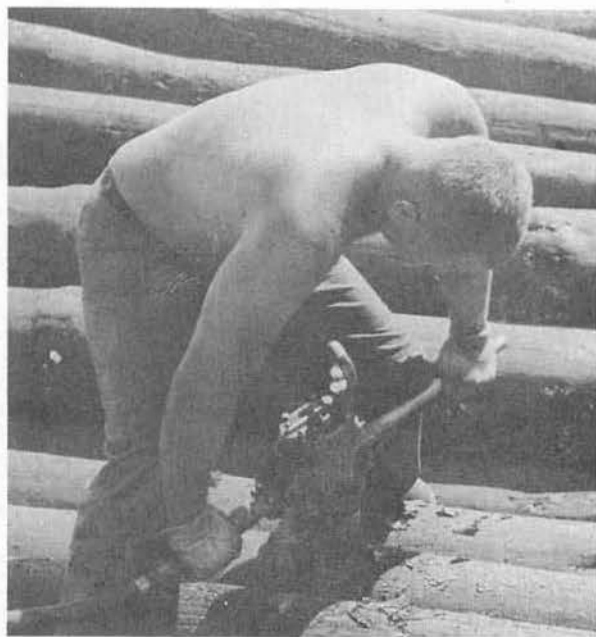

line, constructing a bridge or a nuclear reactor, repairing a lady's wrist watch with a Stillson wrench, or pitching hay with a one prong fork.

Seabees have many mottos. One is "Can Do." Give the Seabees a job, any job, and before the order is completed, work has been started. Another motto is, "We Fight, We Build." The M-14 rifle and other weapons are as familiar to the Seabee as the hammer and wrench. We can and will defend our construction projects.

No ship, station, or unit can live only in the past. That's why every day presents new challenges to the officers and men of MCB ONE. Hard work, long hours, separation from family and friends are but part of the challenge that makes every man assigned to MCB ONE feel and know that he is a member of "The First and The Finest." And so, to you, the Seabees of MCB ONE, we proudly dedicate this Cruise Book.

COMMANDING OFFICER

CDR Robert H. Miller, USN, accepted command of U.S. Mobile Construction Battalion ONE at formal Change of Command ceremonies held 20 June 1962 at Davisville, Rhode Island.

CDR Miller relieved LCDR Charles M. Howe who was transferred to the Armed Forces Staff College at Norfolk, Virginia.

Prior to reporting aboard the battalion June 12, CDR Miller was assigned to the Office of the Chief of Naval Operations, Washington, D. C. While there he headed the Military Construction Section for the Director of Naval Communications.

CDR Miller began his Naval career in 1944 when he entered the U. S. Naval Academy at Annapolis, Maryland. He graduated from the academy in 1947 with a Bachelor of Science Degree and received his Bachelor's Degree in Civil Engineering from Rensselaer Polytechnic Institute in 1951. In 1955 CDR Miller received his Master's

Degree in Civil Engineering from Princeton University. He is a member of the Sigma Xi, Tau Beta Pi and Chi Epsilon honor societies.

His military awards include the World War II Victory Medal, American Campaign Medal, Navy Occupation Service Medal (European), National Defense Service Medal, Korean Service Medal and the Navy Expert Rifleman Medal.

He is the son of Mr. and Mrs. Glenn W. Miller of 160 Berkshire Road, Waterloo, Iowa and is married to the former, Miss Wanda Weglarz of Columbia Street Extension, Cohoes, New York. They are the parents of one daughter, Huntley.

CDR R. H. Miller, CEC, USN
Commanding Officer, MCB ONE

EXECUTIVE OFFICER

LCDR Merritt F. Armatrout, CEC, USN, is a graduate of Illinois Institute of Technology. Upon graduating, he was commissioned as a line officer and served for five years in this capacity.

Transferring then to the Civil Engineering Corps, LCDR Armatrout served as Assistant Base Civil Engineer at Norfolk, Virginia and was attached to the Public Works Department at Fallon, Nevada prior to reporting to USN MCB ONE.

He is the son of Mr. and Mrs. Paul F. Armatrout of Lima, Ohio and is married to the former Joyce Reinmuth of Chicago, Illinois. LCDR and Mrs. Armatrout have three children—Linda, age seven, and Jeff and Greg who are twins, age five.

LCDR Merritt F. Armatrout, CEC, USN
Executive Officer, MCB ONE

CDR R. H. Miller, CEC, USN
Commanding Officer, MCB ONE

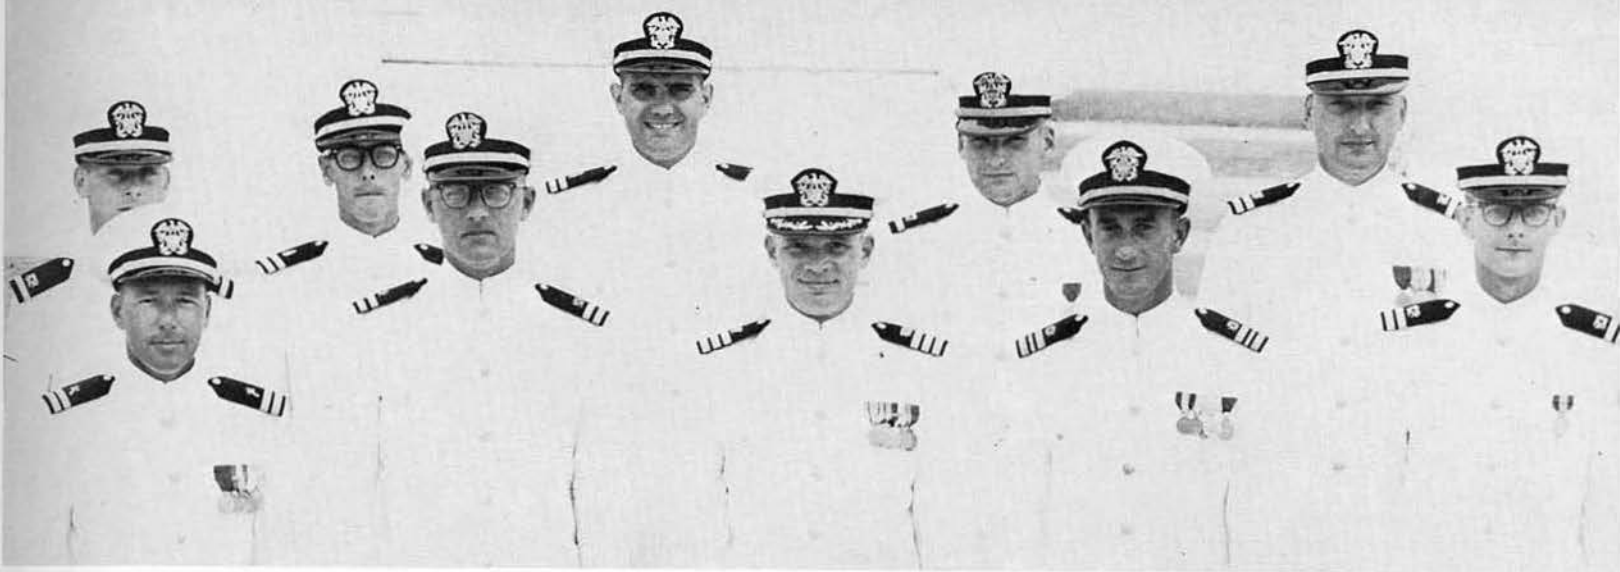

During the past two years I have found first hand why MCB ONE retains the motto of "The First and The Finest." The pride, hidden spirit, endurance, willingness and, above all, the ability to rise to the occasion when things appear at their worst, describes well the men of this battalion. These attributes are not given to each new man in a package when he arrives but rather they are developed primarily from the examples set by the older men in the battalion. Each and every man has a right to be proud of his association with any unit which does the best of its ability on every occasion. I am proud to have been a part of this unit and I look forward to reading and hearing of your accomplishments in the future. Both the officers and men have made my tour a most pleasant experience and I hope we have an opportunity to work together again in the future.

For your assistance, hard work and excellent cooperation I say, thank you.

This yearbook commemorating the activities of MCB ONE during 1963 covers a period which saw a number of new "Firsts" added to the already imposing list of achievements of "The First and The Finest." Foremost among these new accolades were: First mobile construction battalion to be awarded the Navy Unit Commendation, and first Seabee unit ever to be so honored for peacetime operations. First mobile construction battalion to receive the Navy "E" for battle efficiency. First battalion to receive the ComCBLant Athletic Trophy ("Commodore's Cup") for excellence in varsity and intramural competition. And though not a Seabee "First," MCB ONE received for the first time the Peltier Award, presented annually by the Society of American Military Engineers to the construction battalion selected as the best in the entire Navy. Accomplishments such as these by the men of MCB ONE epitomize not only that "Can Do" spirit made famous by Seabees the world over, but also exemplify that extra determination and effort, that desire to do just a little bit more than our best, which have earned and upheld our reputation as "The First and The Finest."

BATTALION AWARDS AND ACHIEVEMENTS 1962-1963

"THE FIRST AND THE FINEST"

MCB ONE RECEIVES NAVY UNIT COMMENDATION FROM UNDER SECRETARY PAUL B. FAY

By attaching to the colors of Naval Mobile Construction Battalion ONE the streamer emblematic of the Navy Unit Commendation, the Honorable Paul B. Fay, Under Secretary of the Navy, climaxed a year of achievement and recognition for the Seabee Unit. The Unit Commendation, presented 6 January during ceremonies at the U. S. Naval Station, Rota, Spain, was awarded to MCB ONE "For exceptionally meritorious service . . . in connection with operations in Antarctica," in recognition of the performance of the Battalion during its deployment to the Antarctic from October 1961 to March 1962. Secretary Fay also presented the Navy Commendation Medal to Chief Construction Mechanic James E. Jones, USN, for his extra-ordinary efforts in keeping equipment operative during the Antarctic deployment in spite of severe weather, extreme cold, and shortages of spare parts.

Among the accomplishments of MCB ONE during the period of the citation were the construction at McMurdo Sound of the first Nuclear Power plant in Antarctica, construction of operational and support facilities at McMurdo, Hallett, and New Byrd Stations, and the preparations of topographic surveys for these stations and Pole Station.

NAVY "E" FOR EFFICIENCY

In ceremonies at the U. S. Naval Construction Battalion Center, Davisville, Rhode Island on 24 May 1963, U. S. Naval Construction Battalion ONE received the Navy "E" for efficiency and the Peltier Plaque for 1962. The Navy "E" was presented to MCB ONE for being selected as the "Best of Type" for 1962. During competition year 1962, MCB ONE installed a nuclear power plant in Antarctica and performed construction work in Rota, Spain; Argentia, Newfoundland; Sigonella, Sicily; St. Thomas, Virgin Islands, and Bermuda. MCB ONE received the Navy Unit Commendation for their work during the Antarctic deployment. The "Best of Type" award is presented to the "outstanding Atlantic Mobile Construction Battalion" each competitive year.

FOR EXCELLENCE IN
BATTLE EFFICIENCY
MOBILE CONSTRUCTION BATTALIONS
UNITED STATES ATLANTIC FLEET
AWARDED TO
MCB ONE
BY
COMMANDER SERVICE FORCE
UNITED STATES ATLANTIC FLEET
FOR FISCAL YEAR 1962

THE PELTIER AWARD

THE PELTIER AWARD is a bronze medallion mounted on a plaque named for the former Chief of Civil Engineer Corps and Bureau of Yards and Docks, Rear Admiral Eugene J. Peltier, CEC, USN (RET.)

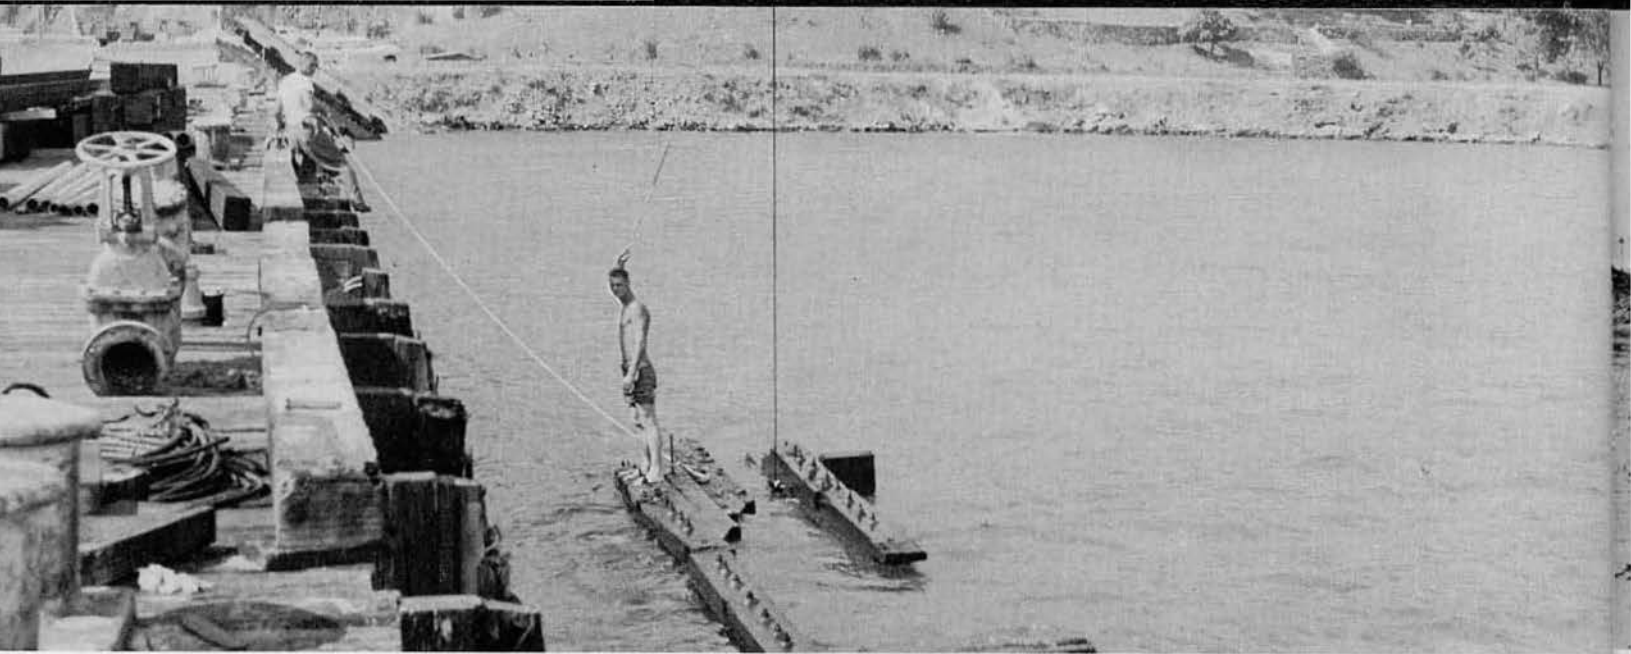

The winner of the award is selected by the Bureau of Yards and Docks for two Seabee battalions selected as "Best of Type" in the Atlantic and Pacific Fleets by their respective Service Force Commanders. Pacific Fleet entry this year was MCB ELEVEN.

The Peltier Plaque is awarded to U. S. Naval Mobile Construction ONE for 1962 in recognition of the outstanding professional and military ability of the personnel of Mobile Construction Battalion ONE during the battalion's deployments to Antarctica and the U. S. Naval Station, Rota, Spain. "The difficult climatic and environmental conditions overcome, ingenuity exhibited, and the standards established, displayed, and maintained by the personnel of this battalion are exemplary and have reflected great credit upon them and their organization. This entire effort which has won them this award for 1962 has been in keeping with the highest traditions of the United States Naval Service," reads the citation.
